### **New Closet Flange Makes It Easier to Set a Toilet**

**CHARLOTTE, NC – September 10, 2018** –Charlotte Pipe’s new ConnectTite® closet flange gives plumbers an easier option to set a toilet. The flange is adjustable, which means users can get the bolt alignment and drain line measurements correct every time.

The ability to reposition, reverse without a tool and reuse the fitting are just some of the many benefits. Other advantages of ConnectTite fittings include:

- Easier, faster installation using push fit technology
- No need for solvent cement or primer, making it mess free and more environmentally friendly
- Less downtime, since ConnectTite fittings have no cure time
- Compatible with both PVC and ABS DWV systems

A video showing a ConnectTite installation, along with additional information can be found at [connectite.com](http://connectite.com).

### **About Charlotte Pipe and Foundry Company**

Charlotte Pipe and Foundry is the only manufacturer that offers a *system* of ABS, PVC, CPVC, cast iron, FlowGuard Gold®, and ChemDrain® pipe and fittings for residential and commercial plumbing systems. The nation's leading maker of cast iron and plastic pipe and fittings, Charlotte Pipe and Foundry offers the industry's broadest product offering of standard and specialty DWV products.

Charlotte Pipe and Foundry was founded in 1901 and is headquartered in Charlotte, NC. The company is American-owned and American-made, with seven plant locations across the United States. Combining modern technology with more than a century of craftsmanship and experience, Charlotte Pipe and Foundry has a proud legacy of commitment to the industry and its customers.
