CHARLOTTE
PIPE AND FOUNDRY COMPANY

THE PREFERRED BRAND OF PIPE AND FITTINGS BY PRO's and DIY'ers

ABOUT CHARLOTTE PIPE® AND OUR PRODUCTS

Charlotte Pipe and Foundry Company is the largest manufacturer of DWV pipe and fitting systems in the country, producing the industry's broadest range of standard and specialty DWV products.

Our product line includes ABS, PVC, and FlowGuard Gold® CPVC CTS pipe and fittings for both residential and commercial plumbing systems. Sizes range from ¼ to 16 inches, based on material.

Pressure Pipe**

PVC SDR 35 Sewer Main Pipe

2729 Sewer and Drain Pipe

**PVC Schedule 80 Pipe and
Fittings**

**PVC Schedule 30 Thin Wall
Pipe and Fittings**

DWV - PVC & ABS

We offer a complete line of standard and specialty DWV plumbing products for use in gravity-fed waste drainage systems. PVC pipe and fittings are manufactured in sizes from 1¼ inches through 16 inches, and ABS in 1½ inches through 6 inches.

As the largest manufacturer that makes both pipe and fittings, Charlotte Pipe can be your single source for all your plastic pipe and fittings needs.

PRESSURE

We produce a full line of pipe and fittings for use in pressure applications where temperatures will not exceed 140 degrees F.

All Charlotte Pipe pressure products are highly resilient and inert to attack by many chemicals.

FLOWGUARD GOLD® CPVC CTS

We offer a complete line of FlowGuard Gold® pipe and fittings for hot- and cold-water distribution. FlowGuard Gold pipe and fittings are specially formulated, tested and proven to maintain water purity, resist corrosion and provide durability.

LARGE-DIAMETER FITTINGS

Our line of large-diameter fittings includes injection-molded and fabricated fittings produced by experienced fabricators with the latest technology available. This ensures our fittings are attractive in appearance and manufactured to the high-quality standards our customers know and expect.

Also, since we manufacture our own pipe for fabrication, there are no missing product markings. Charlotte Pipe large-diameter fittings are available in sizes ranging from 8 inches through 16 inches.

CONNECTITE®

ConnectTite® fittings are the first DWV push-fit fittings on the market. Featuring a patented lock ring and seal, they give users a reliable connection with the added ability to reposition, remove and reinsert if necessary.

Another benefit is easier, faster installation. There is no need for solvent cement or primer, making it mess free, more environmentally friendly, and eliminating cure time. These benefits make ConnectTite ideal for repair, remodel and service plumbers, as well as DIYers. ConnectTite is compatible with both PVC and ABS DWV systems.

All Charlotte Pipe® products are proudly made in the USA.

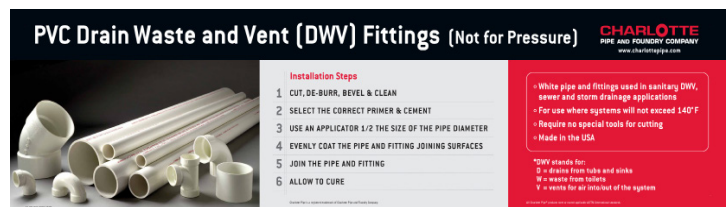

In fact, we employ more than 1,500 loyal, hard-working associates, have six extrusion plants and are headquartered in Charlotte, NC.
