

LEED Documentation Data Sheet

Complete a separate data sheet for each product or material.

Product/Material (generic):		Cast Iron Soil Pipe		
Manufacturer:		Charlotte Pipe and Foundr	ny	
Product Cost (total material cost for project):				
Recycled Content:				
Post-Consumer:	96%	Pre-Consume	·:	0%
Regional Materials:				
Manufacturing Location: Manufacturing means final assembly		North Carolina embled components, prior to	o shipping	<u>.</u>
Distance to Project Site:		miles		
Material Sources: List below the component materials used in manufacturing the product, along with the location and distance of the source for those materials.				
		k 25% of total tonnage		
Percentage of Product by weight:	100%	Distance	99	_miles
Material: <u>iron and stee</u> Percentage of Product by weight:	el scrap, rail	car 75% of total tonnage Distance	415	miles
Material: coke-fuel				
Percentage of Product by weight:	< 1%	Distance	391	_miles
Material: silica carbide				
Percentage of Product by weight:	< 1%	Distance	431	_miles
